Kate Whitney Administrator, Utility Division Public Service Commission 1701 Prospect Avenue Helena, MT 59620-2601

RE: PPL Energy Plus, LLC – 2009 Renewable Energy Standard Annual Report and Procurement Plan

Dear Ms. Whitney,

As filed in PPL's Renewable Energy Procurement Plan dated June 18, 2008, PPL Energy Plus (EPLUS) was <u>not</u> a competitive electricity supplier in 2008. Please see the attached spreadsheet that outlines EPLUS' customer information for the compliance year. As required by the code, PPL authorizes NorthWestern Energy to release load data for all EPLUS customers to the Montana Public Service Commission for the purposes of verifying the customer information submitted in this annual report.

Since EPLUS was not a competitive electricity supplier in 2008, the only renewable energy credits purchased were those purchased on behalf of PPL Treasure State, LLC as reported in it's Annual Report to the Commission.

In addition to demonstrating our compliance for the 2008 reporting year, I am submitting this letter to be considered EPLUS' 2009 Renewable Energy Procurement Plan.

## The PPL Energy Plus, LLC plan is as follows:

Do you expect to be a competitive electricity supplier (as defined at §69-3-2003(4), MCA) in 2009? **No** 

2a. An estimate of your total retail sales for 2009: Not Applicable

2b. An estimate of the quantity of renewable energy credits needed to comply with the renewable energy standards in 2009: **Not Applicable** 

2c. List the anticipated source(s) of the renewable energy credits. Not Applicable

Respectfully submitted,

Rob Gabbard President

PPL Energy Plus, LLC
